Preface

About NAV

The first Conference took place in 1974 as “Convegno Scientifico del Gruppo Automazione Navale e Problemi delle Grandi Navi” (Scientific Conference of Marine Automation Group and Large Vessels Issues), to be held every two years under the patronage of Technical Naval studies Centre (CETENA) and Italian National Research Council (CNR).

In 1984, the cooperation between CETENA and Marine Technical Association (ATENA) led to rename the conference as NAV spreading the topics also to purely technical field, originally covered by ATENA national conferences. Since 1994 the NAV conference is held every three years. As the most important Italian forum for scientific and technical maritime community, it attracts specialists from all over the world.

The 19th Conference (NAV 2018) is finally back in Trieste, after 30 years of absence. For this purpose, a Committee of Honor has been established, including personalities representative of Italian maritime excellence. An international Scientific Committee, composed of members of international academic institutions and relevant industry sectors, ensures the scientific quality of the conference under the guidance of the chairman, Professor Alberto Marinò (University of Trieste).

The previous editions: Rome (1974), Naples (1976), Trieste (1978), Genoa (1980), Naples (1982), Venice (1984), Palermo (1986), Trieste (1988), Ancona (1990), Genoa (1992), Rome (1994), Sorrento (1997), Venice (2000), Palermo (2003), Genoa (2006), Messina (2009), Naples (2012), Lecco (2015).

About ATENA

In 1947 ATENA (Associazione Italiana di Tecnica Navale) was established in Genoa under the initiative of a group of Italian naval architects and marine engineers. The principal aim was to extend the initiatives of the Collegio degli Ingegneri Navali e Meccanici in such a way to stimulate the discussion on ship design and maritime industry between the Italian specialists in this sector.

In February 1948 the first Technical National Conference was held, collecting contributions from the most representative personalities of the national maritime sector, including professional naval architects and marine engineers, professors, researchers, shipowners and insurers.

Since ATENA's founding, its members have been providing high level contributions to research, ship design & construction and the shipping industry. Besides, a primary focus is given to other actual and relevant topics such as maritime safety and environmental issues.

As part of the maritime industry acting in a global market, ATENA is also spreading its vision worldwide, opening up its conferences and events also to international professionals.

Conference Topics

Guest Country

- The Netherlands

Topics

- Comfort on board
- Conceptual & practical ship design
- Deepsea mining and marine robotics
- Environment protection, electric system & ship energy efficiency
- Marine renewable energy
- Naval ships design & technology
- Numerical & experimental hydrodynamics
- Offshore vessels design & engineering
- Safety & security
- Ship digitalization, unmanned vehicle & cyber security
- Ship propulsion, machinery & systems
- Stability, seakeeping & maneuverability
- Structural design & production technology
- Yacht, pleasure craft design & inland waterway vessels

NAV 2018 Organizing Committee

Chairman

- Alberto MOROSO (*ATENA, President*)

Conference Secretary

- Vittorio BUCCI (*ATENA, National Secretary*)

Conference Accountant

- Luca AMBROSIO (*Fincantieri S.p.A.*)

Local Organizer

- Ubaldo la MONACA (*University of Trieste*)

Information Technology Supervisor

- Luca BRAIDOTTI (*University of Trieste*)

Members

- Giorgio BACICCHI (*ATENA Friuli Venezia Giulia, Vice-President*)
- Serena BERTAGNA (*University of Trieste*)
- Mario CROCE (*Lloyd's Register - EMEA*)
- Bruno DELLA LOGGIA (*ATENA Lombardia, President*)
- Paolo FRANDOLI (*ATENA Friuli Venezia Giulia, President*)
- Simone la MONACA (*ATENA Friuli Venezia Giulia*)
- Andrea MANCINI (*CNR - INSEAN Marine Technology Research Institute*)
- Luciano MANZON (*ATENA Friuli Venezia Giulia*)
- Francesco MAURO (*University of Trieste*)
- Carlo NASSO (*University of Trieste*)
- Diego PAULUZZI (*Wärtsilä Italia S.p.A.*)
- Stefania RICCO (*CETENA S.p.A.*)
- Gianluigi ROZZA (*SISSA- Scuola Internazionale Superiore di Studi Avanzati*)
- Lucio SABBADINI (*Maritime Technology Cluster FVG CEO*)
- Michela VELLICO (*OGS - National Institute of Oceanography and Applied Geophysics*)

NAV 2018 Committee of Honour

Members

- Guido BARBAZZA (*Wärtsilä Italia S.p.A., President*)
- Giuseppe BONO (*Fincantieri S.p.A., CEO*)
- Paolo COMANDUCCI (*University of Genova, Rector*)
- Giuseppe CORONELLA (*Vard Group AS, President*)
- Zeno D'AGOSTINO (*Port Authority of Trieste, President*)
- Carla DEMARIA (*UCINA- Confindustria Nautica Italiana, Chairman*)
- Maurizio FERMEGLIA (*University of Trieste, Rector*)
- Valter GIRARDELLI (*Capo di Stato Maggiore Marina Militare Italiana*)
- John HICKS (*Lloyd's Register, Vice-President*)
- Gaetano MANFREDI (*University of Napoli Federico II, Rector*)
- Umberto MASUCCI (*Propeller Club, President*)
- Maria Cristina PEDICCHIO (*OGS - National Institute of Oceanography and Applied Geophysics, President*)
- Stefano RUFFO (*SISSA- Scuola Internazionale Superiore di Studi Avanzati, Director*)

NAV 2018 Scientific Committee

Chairman

- Alberto MARINO' (*University of Trieste*)

Track Directors

- Vittorio BUCCI (*ATENA*)
- Massimo CACCIA (*CNR-ISSIA Istituto sui Sistemi Intelligenti per l'Automazione*)
- Angelo CAMERLENGHI (*OGS - National Institute of Oceanography and Applied Geophysics*)
- Giorgio CONTENUTO (*University of Trieste*)
- Vincenzo CRUPI (*University of Messina*)
- Marco FERRANDO (*University of Genova*)
- Alessandro IAFRATI (*CNR - INSEAN Marine Technology Research Institute*)
- Alessandro MACCARI (*RINA S.p.A.*)
- Giuliana MATTIAZZO (*Politecnico di Torino*)
- Radoslav NABERGOJ (*ATENA Friuli Venezia Giulia*)
- Enrico RIZZUTO (*University of Napoli Federico II*)
- Antonio SCAMARDELLA (*University of Napoli Parthenope*)
- Giorgio SULLIGOI (*University of Trieste*)
- Giorgio TRINCAS (*University of Trieste*)

Members

- Ahmed Dursun ALKAN (*Yildiz Technical University*)
- Vincenzo ARMENIO (*University of Trieste*)
- Ermina BEGOVIC (*University of Napoli Federico II*)
- Carlo BERTORELLO (*University of Napoli Federico II*)
- Claudio BOCCALATTE (*Marina Militare Italiana*)
- Maria BOILE (*CERTH - The Centre for Research & Technology, Hellas*)
- Daniele BOSICH (*University of Trieste*)
- Luca BRAIDOTTI (*University of Trieste*)
- Antonio CAMPANILE (*University of Napoli Federico II*)
- Luigi CANNIZZARO (*University of Palermo*)
- Giovanni CAPRINO (*CETENA S.p.A. - IT*)
- Elena CIAPPI (*CNR - INSEAN Marine Technology Research Institute*)
- Mario CROCE (*Lloyd's Register EMEA*)
- Liviu CRUDU (*University of Galati*)
- Predrag ĆUDINA (*Classis Llc-Ship Design and Consulting*)
- Enrico DELLA VALENTINA (*MARIN*)
- Antonio DE SIMONE (*SISSA - Scuola Internazionale Superiore di Studi Avanzati*)
- Ernesto FASANO (*University of Napoli Federico II*)

- Massimo FIGARI (*University of Genova*)
- Alberto FRANCESCUTTO (*ATENA Friuli Venezia Giulia*)
- Petar GEORGIEV (*Technical University of Varna*)
- Paola GUALENI (*University of Genova*)
- Spiro IVOSEVIĆ (*University of Montenegro*)
- Rumen KISHEV (*BSHC*)
- Pentti KUJALA (*Aalto University*)
- Davide LAURIA (*University of Napoli Federico II*)
- Do LIGTELIJN (*MARIN*)
- Mario MAESTRO (*ATENA Friuli Venezia Giulia*)
- Francesco MAURO (*University of Trieste*)
- Salvatore MAZZOLA (*CNR-IAMC -Istituto per l'Ambiente Marino Costiero*)
- Tony MORRAL (*BMT Group Ltd*)
- Carlo NASSO (*University of Trieste*)
- Danilo NIKOLIĆ (*University of Montenegro*)
- Jasna PRPIĆ-ORŠIĆ (*University of Rijeka*)
- Carlo PESTELLI (*Wärtsilä Italia S.p.A.*)
- Henk PRINS (*MARIN*)
- Cesare Mario RIZZO (*University of Genova*)
- Ørnulf Jan RØDSETH (*SINTEF Ocean*)
- Frank ROLAND (*CMT -Centre of Maritime Technologies*)
- Vedran SLAPNIČAR (*Zagreb Technical University*)
- Kostas SPYROU (*University of Athens*)
- Eleuftherios THALASSINOS (*University of Pireus*)
- Gerardo VALENTINO (*CNR - IM – Istituto Motori*)
- Dracos VASSALOS (*University of Strathclyde*)
- Andrea VICENZUTTI (*University of Trieste*)
- Ken WITTAMORE (*ICOMIA – International Council of Marine Industry Association*)

Contents

Organisers and Sponsors	v
Preface	vii
Conference Topics	viii
NAV 2018 Committees	ix
Part 1. Scientific Papers	
Towards a New Toll Calculation Method for Transiting the Suez Canal – Bulk Carriers <i>Maged Abdel Naby and Mayar Ali</i>	3
Internal Forces and Moments on Hull Girder due to Parametric Roll Development <i>Maria Acanfora and Tommaso Coppola</i>	12
High Efficiency Waste Heat Recovery from Dual Fuel Marine Engines <i>Marco Altosole, Ugo Campora, Michele Laviola and Raphael Zaccone</i>	21
Implementation of Ship Energy Efficiency Requirements in Offshore Shipping Industry <i>Blagovest Belev, Rumen Stoyanov and Radu Hanzu-Pazara</i>	29
An Innovative Concept for Inland Waterway Vessels <i>Alessandro Bernardini, Loris Cok, Carlo Baroni, Carlo Maria Legittimo, Alberto Marinò, Francesco Mauro, Carlo Nasso and Vittorio Bucci</i>	35
Innovative Material Design for Marine Engine Non-Structural Components <i>Serena Bertagna, Erik Laurini, Alberto Marinò, Sabrina Pricl and Vittorio Bucci</i>	43
LESS: A New Simulation Environment for the Preliminary Design of Cruise Ship Energy Systems <i>Bruno Bisello, Dario Cangelosi, Michele Capobianco, Diego Micheli, Paolo Pinamonti, Giuseppe Stranieri, Rodolfo Taccani and Federico Ustolin</i>	51
Application of a Passive Control Technique to the ISWEC: Experimental Tests on a 1:8 Test Rig <i>Mauro Bonfanti, Giovanni Bracco, Panagiotis Dafnakis, Ermanno Giorcelli, Biagio Passione, Nicola Pozzi, Sergej A. Sirigu and Giuliana Mattiazzo</i>	60
Innovative Energy Systems: Motivations, Challenges and Possible Solutions in the Cruise Ship Arena <i>Alessandro Boveri, Matteo Maggioncalda, Diego Rattazzi, Paola Gualeni, Loredana Magistri, Federico Silvestro and Andrea Pietra</i>	71

Analysis of the Influence of Pressure Field on Accuracy for Onboard Stability Codes	80
<i>Luca Braidotti, Giorgio Trincas and Vittorio Bucci</i>	
Fuzzy Analytical Hierarchical Process to Assess Weights of Importance in Ship Operation Risk Assessment	88
<i>Luca Braidotti, Jasna Prpić-Oršić, Marko Valčić, Giorgio Trincas and Vittorio Bucci</i>	
A Ballast Allocation Technique to Minimize Fuel Consumption	97
<i>Luca Braidotti, Francesco Mauro, Luca Sebastiani, Sergio Bisiani and Vittorio Bucci</i>	
Hybrid System Design and Performance Based on Actual Vessel Operational Data	105
<i>Lorenzo Brigati, Andrea Zotti, Thomas Lamberti and Alberto Traverso</i>	
U-SWATH. The Innovative CNR Research USV	115
<i>Gabriele Bruzzone, Angelo Odetti, Marco Bibuli, Massimo Caccia, Danilo Calcagni, Ivan Santic, Claudio Lugni and Emilio Fortunato Campana</i>	
Integrated Ship Design and CSI Modeling: A New Methodology for Comparing Onboard Electrical Distributions in the Early-Stage Design	124
<i>Vittorio Bucci, Ubaldo la Monaca, Daniele Bosich, Giorgio Sulligoi and Andrea Pietra</i>	
An Investigation on the Effects of Various Flow Parameters on the Underwater Flow Noise	133
<i>Sertac Bulut and Selma Ergin</i>	
Ship Survivability Study Using High Fidelity CFD	141
<i>Alejandro Caldas, Constantinos Zegos, Sotiris Skoupas and Jane Jenkins</i>	
Hydrodynamic Noise from a Propeller in Open Sea Condition	149
<i>Marta Cianferra, Andrea Petronio and Vincenzo Armenio</i>	
Airborne Noise Prediction of a Ro/Ro Pax Ferry in the Port of Naples	157
<i>Tommaso Coppola, Luigia Mocerino, Enrico Rizzuto, Massimo Viscardi and Daniela Siano</i>	
Local Strain Approaches for LCF Life Prediction of Ship Welded Joints	166
<i>Pasqualino Corigliano, Vincenzo Crupi, Pingsha Dong, Wolfgang Fricke and Eugenio Guglielmino</i>	
Buckling Analysis of Explosive Welded Joints for Ship Structures	176
<i>Pasqualino Corigliano, Vincenzo Crupi and Eugenio Guglielmino</i>	
Computations of Roll Motion in Waves Using a Fully Nonlinear Potential Flow Method	186
<i>Francesco Coslovich, Giorgio Contento, Martin Kjellberg and Carl-Erik Janson</i>	

At-Sea NATO Operational Experimentation with Interoperable Underwater Assets Using Different Robotic Middlewares	194
<i>Riccardo Costanzi, Davide Fenucci, Vincenzo Manzari, Michele Micheli, Luca Morlando, Daniele Natale, Mirko Stifani, Alessandra Tesei and Andrea Caiti</i>	
On the Evaluation of Propeller Induced Pressures During Initial Design Stages	202
<i>Liviu Crudu, Radoslav Nabergoj, Oana Marcu and Octavian Neculet</i>	
Shape Optimization by Means of Proper Orthogonal Decomposition and Dynamic Mode Decomposition	212
<i>Nicola Demo, Marco Tezzele, Gianluca Gustin, Gianpiero Lavini and Gianluigi Rozza</i>	
A Numerical Way for a Stepped Planing Hull Design and Optimization	220
<i>Flavio Di Caterino, Rasul Niazmand Bilandi, Simone Mancini, Abbas Dashtimanesh and Maria De Carlini</i>	
A Mixed AC/DC Low Voltage Electrical Distribution Architecture for Increasing the Payload on Ships	230
<i>Maria Carmela Di Piazza, Massimiliano Luna, Giuseppe La Tona, Angelo Accetta, Marcello Pucci and Andrea Pietra</i>	
Numerical Simulation of Hot Smoke Plumes from Funnels	238
<i>Ahmad Fakhari, Carlo Cintolesi, Andrea Petronio, Federico Roman and Vincenzo Armenio</i>	
Distributed Energy Resources On-Board Cruise Ships: Integration into the Ship Design Process	246
<i>Giordano Flore, Diego Neroni, Thomas Lamberti, Paola Gualeni, Loredana Magistri, Federico Silvestro and Andrea Pietra</i>	
Fully Automated Ship Resistance Prediction Using the Naval Hydro Pack	256
<i>Inno Gatín, Vuko Vukčević, Vanja Škurić and Hrvoje Jasak</i>	
The Use of Modern Computational Tools in the Design Process of Unconventional Propellers for Performance Prediction and Full-Scale Extrapolation	264
<i>Juan González-Adalid, Mariano Pérez-Sobrino, Stefano Gaggero, Giulio Gennaro and Amadeo Moran Guerrero</i>	
Viscous Flow Computations for the Diffuser Section of a Large Water Tunnel	275
<i>Ahmet Yusuf Gürkan, Çağatay Sabri Köksal, Çağrı Aydın and Uğur Oral Ünal</i>	
Nonlinear Computations of Heave Motions for a Generic Wave Energy Converter	283
<i>Carl-Erik Janson, Abolfazl Shiri, Johan Jansson, Margarida Moragues, Daniel Castanon, Laura Saavedra, Cem Degirmenci and Massimiliano Leoni</i>	
An Alternative Approach for Assessment of the Weather Factor in EEDI Formulation Using Statistical Ranking Theory	291
<i>Rumen Kishev and Silvia Kirilova</i>	

Experimental Investigation of Sloshing in the Rectangular Tank Under the Hydrophobic Effect <i>Fatih Cuneyd Korkmaz, Kenan Yigit and Bulent Guzel</i>	299
Towards Building an Attained Index of Passenger Ship Fire Safety <i>Ioanna A. Koromila, Kostas J. Spyrou, Nikos Themelis and Sofia Ioannou</i>	306
Fastening of the Data Transmission in High Latency Satellite Networks <i>Robert Kratz and Hubertus Osterwind</i>	316
The Effect of Long-Period Components of Added Resistance in Irregular Waves on Ship Performance in Actual Seas <i>Mariko Kuroda, Ken Takagi, Masaru Tsujimoto and Junichi Fujisawa</i>	324
An Innovative Thermal and Acoustic Insulation Foam for Naval Fire Doors Characterization and Study with FEM Analysis <i>Giada Kyaw Oo D'Amore, Marco Caniato, Chiara Schmid, Lucia Marsich, Alessio Ferluga, Luca Cozzarini and Alberto Marinò</i>	332
Low Carbon Intensity Routes via Ocean Currents and Waves <i>Gianandrea Mannarini, Nadia Pinardi and Giovanni Coppini</i>	340
Numerical Investigation of 2D Vortex Induced and Wake Induced Vibrations of Two Circular Cylinders in Tandem Arrangement <i>Simone Martini, Riccardo Pigazzini, Thomas Puzzer, Mitja Morgut and Giorgio Contento</i>	348
Effect of Propeller Modelling on Station-Keeping Thruster Allocation Strategy <i>Francesco Mauro and Eugenia Durante</i>	356
Evaluation of Extreme Wave Loads for Slender Tubular Structures <i>Francesco Mauro and Marco Monacoli</i>	364
Station-Keeping Calculations in Early Design Stage: Two Possible Approaches <i>Francesco Mauro and Francesco Gaudiano</i>	372
Vertical Motions Assessment of an Offshore Supply Vessel in Concept Design Stage <i>Francesco Mauro and Antonino Dell'Acqua</i>	380
A Simulation Model for Hybrid-Electric Inland Waterway Passenger Vessels <i>Francesco Mauro, Carlo Nasso, Ubaldo La Monaca and Vittorio Bucci</i>	388
Effect of Different Propulsion Systems on CNG Ships Fleet Composition and Economic Effectiveness <i>Francesco Mauro, Giorgio Trincas and Luca Braidotti</i>	398
Extensive Cavitation Tunnel Acoustic Characterization of Controllable Pitch Propellers <i>Fabiana Miglianti, Giorgio Tani, Michele Viviani, Daniele Bertetta and Cristina Vaccaro</i>	410
Comparative Test in Design of Hydrofoils for a New Generation of Ships <i>Ferdinando Morace and Valerio Ruggiero</i>	418

Numerical Predictions of a Model Scale Propeller in Uniform and Oblique Flow <i>Mitja Morgut, Dragica Jošt, Aljaž Škerlavaj, Enrico Nobile, Giorgio Contento, Riccardo Pigazzini, Thomas Puzzer and Simone Martini</i>	426
FEM-Aided Structural Design of a Natural Fiber Composite Made Skiff <i>Claudio Moscoloni, Marco Fontana, Biagio Passione, Maria Cinefra and Giuliana Mattiazzo</i>	434
The Strip Planking: An Eco-Friendly Solution for the End-of-Life of Ships <i>Carlo Nasso, Ubaldo la Monaca, Alberto Marinò, Serena Bertagna and Vittorio Bucci</i>	444
Air Quality Simulations and Forecasting of Along-Route Ship Emissions in Realistic Meteo-Marine Scenarios <i>Andrea Orlandi, Francesca Guarnieri, Caterina Busillo, Francesca Calastrini and Andrea Coraddu</i>	452
Preliminary Assessment of Route Optimisation for Fuel Minimisation and Safety of Navigation by the Use of Cooperatively Collected Data at Sea <i>Andrea Orlandi, Riccardo Benedetti, Valerio Capecchi, Alberto Ortolani and Luigi Costalli</i>	462
Time Domain Assessment of Vertical Motions of Planing Hulls <i>Silvia Pennino, Ermina Begovic, Carlo Bertorello and Antonio Scamardella</i>	472
Experimental and Numerical Prediction of the Hydrodynamic Performances of a 65 ft Planing Hull in Calm Water <i>Riccardo Pigazzini, Thomas Puzzer, Simone Martini, Mitja Morgut, Giorgio Contento, Inno Gatin, Vuko Vukčević, Hrvoje Jasak, Ermina Begovich, Sebastiano Caldarella, Marco De Santis and Amedeo Migali</i>	480
Analytical Formulation of Plating Ultimate Strength with Pitting Corrosion Wastage <i>Vincenzo Piscopo and Antonio Scamardella</i>	488
3D Adaptive Coverage Planning for Confined Space Inspection Robots <i>Rowan Pivetta, Andrew Lammas and Karl Sammut</i>	496
PeWEC: Preliminary Design of a Full-Scale Plant for the Mediterranean Sea <i>Nicola Pozzi, Andrea Bonetto, Mauro Bonfanti, Giovanni Bracco, Panagiotis Dafnakis, Ermanno Giorcelli, Biagio Passione, Sergej A. Sirigu and Giuliana Mattiazzo</i>	504
Towards Guidelines for Consistent Wave Propagation in CFD Simulations <i>Stéphane Rapuc, Pierre Crepier, Frédérick Jaouen, Tim Bunnik and Pauline Regnier</i>	515
Gain in Fuel Consumption with Frictional Resistance Reduction by Air-Bubbling Technique <i>Enrico Ravina and Sofia Guidomei</i>	525
Survey Procedures and Class Notation Harmonization for an Effective Quantification of Passenger Comfort <i>Giulia Scarinzi, Luigi Bregant and Marco Biot</i>	533

The Bucintoro Preliminary Design: Static and Hydrodynamic Assessment <i>Giovanni Scarpa, Luca Braidotti, Francesco Mauro and Giorgio Trincas</i>	541
Experimental Investigation of the Hydrodynamic Performance of the ISWEC 1:20 Scaled Device <i>Sergej Antonello Sirigu, Mauro Bonfanti, Biagio Passione, Ermina Begovic, Carlo Bertorello, Panagiotis Dafnakis, Giovanni Bracco, Ermanno Giorcelli and Giuliana Mattiazzo</i>	551
On the Stability of Underwater Glider at Balancing Motions Modes <i>Andrey L. Sukhorukov and Maksim A. Titov</i>	561
Model Order Reduction by Means of Active Subspaces and Dynamic Mode Decomposition for Parametric Hull Shape Design Hydrodynamics <i>Marco Tezzele, Nicola Demo, Mahmoud Gadalla, Andrea Mola and Gianluigi Rozza</i>	569
Comparison of Marine Technologies for Mediterranean Offshore Gas Export <i>Giorgio Trincas</i>	577
On the Deck Structural Layout of Megayacht <i>Gianmarco Vergassola, Dario Boote, Tatiana Pais and Lisa Ricci</i>	587
Launch and Recovery for Ship-Deployed Autonomous Underwater Vehicles <i>Amirmehdi M. Yazdani, Karl Sammut, Oleg A. Yakimenko and Andrew Lammas</i>	596
Kotor Bay Area Hydrodynamics and Pollutant Dispersion Simulations: A Tool for Contingency Plans <i>Giulia Zanier, Francesco Giunto, Andrea Petronio, Federico Roman, Radmila Gagić and Danilo Nikolic</i>	604
Part 2. Technical Papers	
Small-Scale LNG in East Med: Unlocking the Permitting Puzzle Through Robust Safety Assessment Methodologies and Expertise <i>Anna Apostolopoulou, Thanos Koliopoulos, Theodoros Kourbelis, Anastasia Kouvertari, Panagiota Mentzi and Panayiotis Mitrou</i>	615
Environmental Monitoring System in a Cruise Ship Cabin <i>Paolo Baronti, Paolo Barsocchi, Erina Ferro, Davide La Rosa, Roberto Nerino, Massimo Piotto, Paolo Ravazzani, Gabriella Tognola, Daniel Celotti and Paolo Guglia</i>	623
System for Speed/Power Trials Measurement and Analysis in Accordance with International Recommended Procedure <i>Paolo Becchi, Mirko Bassetti, Mauro Garbarino and Giovanni Cusano</i>	631
Recent Advances on Propeller Shaftlines for the Marine Industry <i>Elias Boletis and Matthias Keller</i>	639

Cruise Cabin as a Home: Smart Approaches to Improve Cabin Comfort <i>Raol Buqi, Sara Carciotti, Margherita Cipriano, Paolo Ferrari, Massimiliano Nolich, Alessandro Rinaldi, Walter Ukovich, Daniel Celotti and Paolo Guglia</i>	647
Modular Platforms for Early Production / Full Field Applications <i>Mirco Busetto, Marco Zennaro, Andrea Rimoldi and Carmine Palumbo</i>	655
SRtP 2.0 — The Evolution of the Safe Return to Port Concept <i>Dario Cangelosi, Alessandro Bonvicini, Marco Nardo, Andrea Mola, Andrea Marchese, Marco Tezzele and Gianluigi Rozza</i>	665
Italian Navy Future Fleet – Analysis on on Board Electrical System and Cold Ironing <i>Michele Cataneo and Gennaro Lipardi</i>	673
GASVESSEL – CNG Sea Transportation Project <i>Loris Cok, Pierluigi Busetto, Luca De Zotti, Silvia Dorigo and Spartaco Angelini</i>	681
LNG Opportunities for Harbor Development <i>Loris Cok, Luca De Zotti and Oscar Perosa</i>	689
A Case for Innovative Thinking: Expanding the Boundaries of Environmental Protection as a Result of Energy Design Efficiencies in Expeditionary Yachts <i>Mark W. Corsetti and Richard Delpizzo</i>	697
Heavy-Lifting: Coupled Stability & Structural Analysis in a Load-Out Operation <i>Stéphane Dardel, Nick Danese, Jean-Luc Morbelli and Sylvain Flouret</i>	705
The Application of Goal Based Design for Passenger Ship Safety Improvement <i>Matteo Dreossi and Alessandro Bonvicini</i>	713
Hybrid Energy and Propulsion System for Vessels in Timetable Operation <i>Martin Einsiedler</i>	721
Possibility of Placing a Retractable Sail System for an Oil Tanker to Optimize Its Efficiency <i>Catalin Faitar and Liviu Constantin Stan</i>	729
Inclusive Yacht Design <i>Paolo Ferrari and Walter Ukovich</i>	737
Definition and Development of the Modularity Features for the Italian Navy Multirole Patrol Vessel Mission Bays <i>Francesco Greco and Simone Serpagli</i>	745
CFD Automated Self Propulsion Test <i>Gianluca Gustin, Gianpiero Lavini and Francesca Mocnik</i>	753
Technical and Economic and Environmental Feasibility of an Innovative Integrated System of Management and Treatment of Waste on Board <i>Alessandro Iannello, Serena Bertagna, Dario Pozzetto, Luca Toneatti, Riccardo Zamarini and Vittorio Bucci</i>	762

A Shared Immersive Virtual Environment for Improving Ship Design Review <i>Marco Jez, Carlo Fantoni, Marko Keber, Sara Rigutti, Marta Straga, Piero Miceu, Luca Ambrosio, Andrea Carnaghi and Walter Gerbino</i>	770
Engineering Progress Measured on CAD 3D Model Data Rather than Drawings <i>Igor Juricic and Luciano Maresca</i>	778
Developments of New Patented Ice Breaking Devices for Ice Going Vessels <i>Gianpiero Lavini and Gennaro Avellino</i>	786
Comparative Study of Hydrodynamic Performance for Optimal Designs of Catamaran and SWATH for Site-Specific Operations <i>Sing-Kwan Lee, Jiahuan Liu, Haidong Lu, Lixin Xu and Jiancheng Liu</i>	795
The Green Fleet Project: Energy Saving Measures <i>Massimiliano Leonardi</i>	803
Fluid Dynamics Optimization of a Shaft-Less Rim-Driven Propeller <i>Amedeo Migali, Daniele Bruno, Daniele Malgieri, Luca Parussini and Marco De Santis</i>	811
Theoretical and Experimental Investigation of Appendages and Heeling Angle Influence on the Hydrodynamic Resistance of a Sailing Yacht <i>Dan Obreja, Liviu Crudu, Mădălina Sălcianu and Răzvan Plîngu</i>	819
Experimental Investigation of Blade and Propeller Loads During Straight Ahead Sailing <i>Fabrizio Ortolani, Giulio Dubbioso, Ivan Santic and Salvatore Mauro</i>	829
Monitoring Systems at the Service of Ship's Energy Efficiency: Measurements Campaign and Analysis of the Actual Electrical Absorptions on Board <i>Federica Piastra and Stefano Qualich</i>	837
Systematic Analysis of Geometrical Characteristics of Hulls for Displacement Yachts <i>Valerio Ruggiero</i>	845
Hybrid Life-Saving Appliances: A Novel Evacuation-System Concept Solution <i>Gabriele Sancin</i>	853
Interaction Between Industry and Class Societies in Cruise Ships Structural Design: A Positive Fincantieri Experience <i>Mauro Sicchiero, Matteo Sidari, Vincenzo Liguori, Mario Croce, Andrea Tarello, Enrico Gombi and Alessandro Grasso</i>	861
Non-Linear and Modular Planning <i>Vedran Slapničar and Ivan Adum</i>	869
Ontologies' Definition for Modeling the Cabin Comfort on Cruise Ships <i>Daniele Spoladore, Sara Arlati, Massimiliano Nolich, Sara Carciotti, Alessandro Rinaldi, D. Celotti and P. Guglia</i>	877
Fuel Cells and Shipping Emissions Mitigation <i>Rodolfo Taccani, Federico Ustolin, Nicola Zuliani, Paolo Pinamonti and Andrea Pietra</i>	885

Shore to Ship Power Supply Integrating Conventional and Distributed Generators Along with Storage <i>Giordano Torri, Silvio Casini, Andrea Piccin and Denis Mondo</i>	893
Part 3. Reviews	
A New Approach for Human Factor Integration into Ship Design Process <i>Costantino Bongermano, Paola Gualeni, Fabrizio Bracco, Michele Masini and Tommaso Piccinno</i>	905
Alternative Fuels: Present and Future of Containment Technologies and Impact on Shipbuilding <i>Fabrizio Cadenaro and Ed Fort</i>	916
Interior Yacht Design: Evolution and New Scenarios <i>Mariateresa Campolongo</i>	926
Interior Design of Motor Yacht, Evolution of Style and Typology <i>Enrico Tommaso Carassale</i>	934
Naval Automation Cyber Defence Guidelines <i>Davide Cardellicchio</i>	943
The Cyber Risk and Its Management in the Marine Industry <i>Elisa Cassi, John Paul Cavanna and Paolo Scialla</i>	950
Risk Based Design <i>Paul Davies and Marco Nardo</i>	960
The Irradiated Noise Limits of the Rules Are Very Different: How It Is Possible for Cruise Shipbuilders to Deal with Very Different Technical Approach? <i>Francesco De Lorenzo and Adrià Oliva Tomas</i>	968
Surface Treatments for Ship Hulls – Present Situation and Trends <i>Marina Delucchi, Giacomo Cerisola and Enrico Rizzuto</i>	976
A New Escort Tug Family Designed to Anticipate New Safety Requirements and Operational Needs <i>Massimo Figari, Luca Martinelli, Michele Martelli, Lucia Enoizi and Benedetto Piaggio</i>	986
An Italian Way for Yacht Coding? <i>Leonida Giunta</i>	994
Climate Changes and Maritime Transportation: A State of the Art <i>Luigia Mocerino, Franco Quaranta and Enrico Rizzuto</i>	1005
Wetlands Monitoring: Hints for Innovative Autonomous Surface Vehicles Design <i>Angelo Odetti, Marco Altosole, Massimo Caccia, Michele Viviani and Gabriele Bruzzone</i>	1014
Past, Present and Future in Ship Design <i>Rodrigo Perez Fernandez</i>	1023

Assessing Business Cases for Autonomous and Unmanned Ships <i>Ørnulf Jan Rødseth</i>	1033
Dealing with Novel and Emerging Threats in the Maritime Industry: The Need for an Alternative Life – Cycle Risk Management Framework <i>Nikolaos P. Ventikos and Konstantinos Louzis</i>	1042
Author Index	1051
